## Overview of the Company Menu

GS1 US Data Hub<sup>®</sup> | Company is an intuitive, secure online tool that provides *source-based* (not crowd-sourced), validated data on GS1 Company Prefix ownership that is accessible in a scalable way. With your base Company View/Use subscription, you can perform an online search under **Company View/Use** to search by Company Name, GS1 Company Prefix, GTIN or GLN.

In addition, the Export Add on subscription supports the ability to download search results executed through the user interface, enables the Download Search function to access the prefix lists, and The List Match add on supports bulk searches.

### Example: Navigation to GS1 US Data Hub | Company

Submenu	Description
View Use Search  View/Use	Search for companies by Company Name, GS1 Company Prefix, GTIN or GLN.
List Match Search  List Match	Search for multiple companies at one time by uploading an Excel file to match the results.  *Export Add on subscription required

## Search By Company

Use the Search by Company name to verify GS1 US membership. Enter one or more parameters such as: Company Name, Street Address, City, Zip Postal Code, or Prefix Origin to initiate your search as follows:

The screenshot shows the GS1 US Data Hub interface. The navigation menu at the top includes 'Company', which is highlighted with a red box and arrow labeled '1'. Below the navigation, the 'View/Use' tab is selected, also highlighted with a red box and arrow labeled '1'. The 'Company Search' section has a 'Company' tab selected, highlighted with a red box and arrow labeled '2'. The 'Company Name' field contains 'GS1 US', highlighted with a red box and arrow labeled '2'. The 'Search' button is highlighted with a red box and arrow labeled '3'. The search results are displayed in a table, highlighted with a red box and arrow labeled '4'. The 'Export Results' button is highlighted with a red box and arrow labeled '5'.

Entity GLN	U.P.C. Company Prefix	GS1 Company Prefix	Company	Company Prefix Status	Date Modified
0614141	8951	08951	GS1 US, INC. 7887 WASHINGTON VILLAGE DR STE 300 DAYTON, OH 45459-3988 US	Active	10/18/2014

1

Click **Company** from the navigation menu. The **View/Use** search will default.

2

From the **Company** tab, type in the company name you want to search for. Search results will populate based on a “contain” filter. You may also check the “Exact Match Only” button, to narrow the displayed results that exactly match the text in the Company Name field.

3

Click **Search**.

4

The Search Results will display the matching names and their GS1 Company Prefixes.

5

With the Export Add on subscription, you can also export the search results by clicking **Export Results** to download results in an Excel spreadsheet.

## Search by Prefix

Use the Search by Prefix to verify GS1 US membership. Enter the GS1 Company Prefix to initiate your search, as follows:

The screenshot shows the 'Company Search' page in the GS1 US Data Hub. The interface includes a navigation bar with 'Home', 'Product', 'Location', 'Company', 'Reports', 'Administration', 'Developer Portal', and 'Help'. Below the navigation bar, there are options for 'View/Use', 'List Match', and 'Download'. The main content area is titled 'Company Search' and has three tabs: 'Company', 'Prefix', and 'GLN'. The 'Prefix' tab is selected. A search form is visible with a 'Prefix' input field containing '0895123001' and a 'Prefix Origin' dropdown menu set to 'UNITED STATES'. A 'Search' button is located below the form. The search results are displayed in a table with columns: 'Entity GLN', 'U.P.C. Company Prefix', 'GS1 Company Prefix', 'Company', 'Company Prefix Status', and 'Date Modified'. The results show one entry for 'GS1 US, INC.' with a 'Date Modified' of '10/18/2014'.

1 Click **Company** > **View Use**.

2 Click the **Prefix** tab.

3 Type in the company's **Prefix number** you want to search for. This can be the GS1 Company Prefix (which starts with a zero) or the U.P.C. Company Prefix.

4 Click **Search**.

5 The Search Results will display the matching prefix number and information about the company that licensed that prefix.

**Note:** Company Prefix data is only returned for companies registered with GS1 US.

## Search by GTIN

Use the Search by GTIN (Global Trade Item Number) to identify the company who licensed the prefix to create the GTIN. Enter the GTIN to initiate your search as follows:

The screenshot shows the GS1 US Data Hub interface. At the top, there is a navigation bar with 'Company' and 'View/Use' highlighted. Below this, the 'Company Search' section is visible, with 'GTIN' selected as the search method. A search input field is present with the placeholder text 'Required (digits only)'. A 'Search' button is located below the input field. The search results section shows a table with columns: Entity GLN, U.P.C. Company Prefix, GS1 Company Prefix, Company, Company Prefix Status, and Date Modified. Each column has a 'filter' button. The table currently displays 'No data available in table'.

- 1 Click **Company** > **View Use**.
- 2 Click the **GTIN** tab.
- 3 Type in the company's **GTIN number** you want to search for.
- 4 Click **Search**.
- 5 The Search Results will display the company associated with that GTIN and information about the GS1 Company prefix used to generate that GTIN.

**Note:** GTINs are found on products sold at a store or on-line and on cases and pallets in a distribution or warehouse environment. They can be 8, 12, 13, or 14 digits in length.

## Search by GLN

Use the Search by GLN to view the owner of the 13-digit number which identifies physical locations such as stores, manufacturing centers, warehouses, corporate headquarters, etc. Enter the GLN to initiate your search:

The screenshot shows the 'Company Search' interface. The top navigation bar includes 'Company', 'Reports', 'Administration', 'Developer Portal', and 'Help'. The 'Company' tab is selected. Below the navigation bar, there are options for 'View/Use', 'List Match', and 'Download'. The search interface has tabs for 'Company', 'Prefix', 'GTIN', and 'GLN'. The 'GLN' tab is active. A search field contains the GLN '0614141000005'. A 'Search' button is located below the search field. The search results are displayed in a table with columns: Entity GLN, U.P.C. Company Prefix, GS1 Company Prefix, Company, Company Prefix Status, and Date Modified. The results show one entry for the GLN '0614141000005', with a U.P.C. Company Prefix of '614141', a GS1 Company Prefix of '0614141', and company information for 'GS1 US, INC.' located at '7887 WASHINGTON VILLAGE DR STE 300 DAYTON, OH 45459-3988 US'. The company prefix status is 'Active' and the date modified is '10/18/2014'.

- 1 Click **Company** > **View Use**.
- 2 Click the **GLN** tab.
- 3 Type in the company's **GLN number** you want to search for.
- 4 Click **Search**.
- 5 The Search Results will display the company associated with that GLN and information about the GS1 Company prefix used to generate that GLN.

## Company List Match

Use the List Match add on to your Company View/Use subscription to verify brand owners and Company Prefix information by uploading GTINs/U.P.C.s, GLNs, or Company Prefixes to an Excel file. Complete the following steps:

The screenshot illustrates the List Match process in the GS1 US Data Hub. It shows an Excel file with data in column A, the navigation path to the List Match tool, the form configuration (Identifier: GTIN/U.P.C.), the file upload step (Browse), the submission (Submit), the refresh button, and the resulting list of files in the List Match Results section.

- 1** Create an Excel file of GTINs/U.P.C.s, GLNs, or GS1 Company Prefixes (enter data in column A). Use one type of identifier per file. In cell A1 enter the word **ID**. Save the file locally on your computer.
- 2** Click **Company** > **List Match**.
- 3** Choose from the **Identifier** drop down to search by GTIN/U.P.C, GLN, or GS1 Company Prefix.
- 4** Click **Browse**. Locate the Excel file on your computer and attach. You will see the file name displayed in the **Upload File** field.
- 5** Click **Submit**.
- 6** Click **Refresh** until the status is complete or continue on to other tasks as the import results will be waiting when you return to this page.
- 7** Click the **File** hyperlink to Open/Save the Excel file with the search results. The file will contain both matches and any errors from the input data.  
**Note:** results will be available for 90 days.

**Note:** Avoid the use of certain characters that are known to cause processing delays. Characters include the pipe "|" and line breaks "CR/LF".

## Company Download

Use the Export function in your Company View/Use add on subscription to identify GS1 Company Prefixes that are active or inactive.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P
1	EntityGL	UPCPref	PrefixSt	Compa	Address	AddressLi	AddressLi	City	State	ZipCoc	PrefixStat	Date	Mo	GSRN		
2	0811825	8600003	0860000	2CC	Grc	3115	EE		SAN DI	CA	92106	Inactive	11/12/21	10123450		
3	0860149	8600003	0860000	Abundi	8950	W			BEVER	CA	90211	Inactive	11/12/21	10123450		

1

Click **Company** > **Download**.

For Complete US Prefix List Active and Inactive go to step 2.  
For Complete US Prefix List Active Only go to step 3.  
For Monthly Prefix Changes go to step 4.

2

Click **Download** to retrieve the **Complete US Prefix List Active and Inactive** file of company prefixes that have been assigned by GS1US to date.

3

Click **Download** to retrieve the **Complete US Prefix List Active Only** file of all active GS1 US Company prefixes as of the date created.

4

**Select from the drop-down** what month to download.

5

Click **Download** to retrieve the **Monthly Prefix Changes** file of all prefixes that were modified by GS1 US during that month.

6

Click **Download** to download a complete list of GS1 US (Single) GTIN Licensees. These GTINs are not Company Prefix-based and can only identify a Single Product.

**NOTE:** Download experience vary by web browser. In addition, be aware of the file sizes as they may be very large and take some time to download.
